I. We checked on status of Turn-In for ESSAY #1. If you haven’t turned it in yet, please do so today—a late fee will be charged, but that’s better than a zero.

II. Pick up §1.2: p. 19 — EXPLANATIONS.
   A. "Rule of Thumb" 
      
      Argument — Attempts to prove THAT something happened.
      
      Explanation — Attempts to show WHY something happened.

III. Conditional Statements.
   A. Examples:
      
      1. If it rains, then Jones gets wet.
         
         If A, then C.
         
         antecedent    consequent.
         
         Inverted Error.
      
      2. Jones gets wet, if it rains.
         
         C, if A.
      
      3. Compare with.
         
         If rains (only if) Jones gets wet.
         
         (This, 3), means the SAME as 1. and 2.

IV. Summary p. 23 — I suggest you read this.

V. Exercise p. 23. — We worked these in class.
   I. 1, 2, 3.

VI. Be sure you can do problems 14, 15, 16 on pages 30–31 (all parts).
    Also do as many of the "#" exercises on pages 23–27 as you can.

VII. There will be no class on Fri. I’ll be out of town. I’m taking some of the Engineering Club officers to a meeting in Tuscaloosa, AL.
