I. Reviewed 2 problems from Quiz #1.

II. Do Quiz #02 before Class on Mon. Also, I'll make a Study Guide out of Quiz #01, so that you can see the answers.

III. Summary of Distribution.

IV. A: Some S are P.
    B: Some S are not P.
    (There exists at least one object that is both an S and a P.)
    Note: "x" is an icon.

These (above) are the 4 basic Venn Diagrams.

END of CLASS (I'll finish the basic Venn Diagrams after class).
